Department of Justice

RE: Microsoft Settlement

Dear Sir or Madam:

I believe the settlement negotiated by the United States Department of Justice is fair. Further litigation is a waste of the country's resources to benefit only a few. The current products provided by Microsoft have proved productive in my practice of medicine. I believe that the distraction thus far has been disruptive. I hope this information is helpful to you in your decision.

Sincerely yours,

A handwritten signature in cursive script, appearing to read "J. Frederick Laucius".

J. Frederick Laucius M.D.
